

**CERTIFICATION OF PROOF OF  
FABRIC STABILIZATION**

**This is to confirm that bidder is to have any and all Dacron/Wool blend fabric stabilized, pre-shrunk, and decated. This treatment is necessary to prevent excess shrinkage and to improve the lustre, hand, and finish of the fabric. Upon completing such a process, shrinkage is to be well within industry tolerance.**

**All firms used for fabric stabilization of Dacron/Wool or all wool fabrics shall be named below and identified by name, address, phone number, and contact person.**
